Jack Finklea Collection, Manuscript Group 117
Indiana University of Pennsylvania, Special Collections and University Archives
12 boxes, 16 linear feet

Biographical Note

Dr. John (Jack) F. Finklea (August 27, 1933-December 22, 2000) was a public health administrator notable for his leadership at the Environmental Protection Agency (EPA) and the National Institute for Occupational Safety and Health in the 1970s. A native of Florence, South Carolina, John Finklea earned his BS from Davidson College in North Carolina and his MD from the Medical University of South Carolina. He earned graduate degrees (MS and PhD) in public health from the University of Michigan, and he taught medicine before moving into public health administration.

From 1970-1974, Dr. Finklea was the head of the EPA National Environmental Research Laboratory in Durham, North Carolina. His controversial research included the adverse health effects of atmospheric sulfates from power plants, and sulfur dioxide emissions and acid rain. Dr. Finklea was opposed to the auto industry using catalytic converters to control auto emissions because of the adverse environmental impact. In 1975, Dr. Finklea was appointed director of the National Institute for Occupational Safety and Health (NIOSH). During his tenure as director, NIOSH identified 65 potentially dangerous substances found at job sites, 100 chemical compounds considered potential carcinogens. He resigned from NIOSH in 1978, and returned to teaching in higher education. Dr. Finklea taught at the University of Alabama as a professor of medicine and professor of environmental science. He helped to establish the University of Alabama Occupational Health Clinic. In 2000, he retired from teaching.

Scope and Content

This is an extensive collection of medical books that deal with major health issues. There are many books covering occupational safety and environmental health concerns.

Provenance

The collection was donated by Jack Finklea after his retirement from the University of Alabama in 2000.

Restrictions

None, this collection is open for research.

Processor

Processed by Special Collections in 2009 and the collection finding aid was updated in 2014.

Container List:

Box 1 Publications

1. American Medical Association. Guides to the Evaluation of Permanent Impairment, 2nd ed. Chicago: American Medical Association, 1984.

2. Conn, Howard F. and Rex B. Conn, Jr., ed. Current Diagnosis 6. Philadelphia: W.B. Saunders Co., 1980.
3. Key, Marcus M., et al, ed. Occupational Diseases: A Guide to Their Recognition. Revised. Washington, DC: US Department of Health, Education and Welfare, GPO, 1977.
4. National Institute for Occupational Safety and Health (NIOSH). Building Air Quality: A Guide for Building Owners and Facility Managers. Washington, DC: NIOSH, GPO, 1991.
5. Rubenstein, Edward and Daniel D. Federman. Scientific American: Medicine. 2 Volume in 4 binders. New York: Scientific American, Inc., 1987.
6. US Department of Health, Education and Welfare. The Industrial Environment: Its Evaluation and Control. Washington, DC: GPO, 1973.

Box 2 Publications

1. Conn, Howard F., ed. Current Therapy, 1981: Latest Approved Methods of Treatment for the Practicing Physician. Philadelphia: W.B. Saunders Co., 1981.
2. Cutler, Sidney J. and John L. Young, Jr., ed. Third National Cancer Survey: Incidence Data. Washington, DC: National Cancer Institute, GPO, 1975.
3. Physician's Desk Reference for Nonprescription Drugs. 12th ed. Oradell, NJ: Medical Economics Co., 1991.
4. Riggins, Wilson B., et al, ed. United States Cancer Mortality Rates and Trends, 1950-1979. 4 Volume Washington, DC: Environmental Protection Agency, GPO, 1983.
5. Roeske, Margaret P., ed. Best's Underwriting Guide for Commercial Lines. 2 Volume Oldwick, NJ: A.M. Best Co., 1982.
6. Rosenberg, Mark L. Patients: The Experience of Illness. Philadelphia: Saunders Press, 1980.
7. Threshold Limit Values: Best Prevailing Standards. Geneva, Switzerland: International Federation of Chemical, Energy and General Workers' Unions (ICEF), 1982.

Box 3 Publications

1. Agency for Toxic Substances and Disease Registry: Biennial Report to Congress, 1991 and 1992. Washington, DC: GPO, 1992.
2. Allen, John P. and Megan Columbus, ed. Assessing Alcohol Problems: A Guide for Clinicians and Researchers. Bethesda, MD: National Institutes of Health, 1995.
