**Historical Sketch**

The Rochester & Pittsburgh Coal Company was incorporated as the Rochester & Pittsburgh Coal & Iron (R&P C&I) Company in 1881 by the Adrian Iselin family, Swiss investment bankers from New York City. The company's first mines were located in Jefferson County, Pennsylvania, in an area known as the Saw Mill Run Valley. These mines, including the Walston Mine which, by 1885, was using much of the coal it produced to make coke, boasted the longest string of coke ovens in the world. Five hundred employees worked in the ovens alone.

During the 1880s, with the backing of the Iselin banking firm, the R&P C&I Company expanded significantly, with large operations opened at Beachtree, Walston, Adrian, Florence, and Eleanora in Jefferson County, Pennsylvania. The town of Walston was founded in 1883 and named in honor of Walston H. Brown, who was a New York financier and first president of the R&P C&I Company. By 1890, the Company had acquired over five thousand acres of coal lands. R&P C&I had also purchased several small railroads, which they consolidated into one large railway company, the Buffalo, Rochester & Pittsburgh (BR&P) Railway.

Coal and coke shipped from the R&P Coal & Iron Company's mines found a ready market in the developing iron and steel industry adjacent to the Great Lakes area. The BR&P Railway, which connected the rich coal fields of southwestern Pennsylvania with Buffalo, Rochester, and other more distant markets in New England and Canada, afforded the shortest rail route, and consequently the cheapest route, to these markets.

In addition to the development of its own mines, the Rochester & Pittsburgh Coal & Iron Company actively pursued the acquisition of older mines with established output levels. Along with the Jefferson & Clearfield Coal & Iron (J&C C&I) Company, a company with an identical Board of Directors, R&P purchased the Helvetia mine in Clearfield County at the price of \$1.1 million, an exorbitant sum in 1895. But for that price, in an average year Helvetia produced 252,142 tons of coal and 9,331 tons of coke. The R&P Coal & Iron Company also acquired the Bell, Lewis & Yates Mining Company in 1896, a purchase which included the rights to the Rochester Mine, an operating mine near Dubois in Clearfield County which dated back to 1877. The Rochester Mine produced an average of 504,720 tons of coal per year and employed six hundred miners. At almost the same time, R&P added the Big Soldier Mine near Reynoldsville, Jefferson County, to its holdings. With these new property acquisitions, the R&P Coal & Iron Company became one of the largest mining companies in the bituminous coal regions in southwestern Pennsylvania.

As the nineteenth century drew to a close, the R&P Coal & Iron Company continued to expand its existing operations, all the while seeking new coal lands and more lucrative markets for the coal it was producing. By obtaining track rights between Indiana and Pittsburgh over the B&O

rails, R&P expanded the BR&P's area of operations, capitalizing on the growing Pittsburgh iron and steel industries.

In April of 1900, R&P Coal & Iron purchased several thousand acres of land in the north-western section of Indiana County. For the opening of these coal fields, R&P Coal & Iron retained its president, Lucius Waterman Robinson, and its Board of Directors, and formed a complex system of subsidiary companies to head each of its new mines. This was done to protect the parent company from potential bankruptcy and to insure that all income tax advantages were exploited. The Iselin family continued its financial backing for all of the company's business ventures.

By 1920, R&P Coal & Iron had fifteen mines operating in Indiana County alone, the largest of which was Ernest, which employed one thousand men. In 1904, R&P began deep mining in Ernest, and transferred its primary mining interests to Indiana County. This company-owned town epitomized the "mining patches" of southwestern Pennsylvania, with over a dozen different nationalities residing there. These immigrant miners and their families attended the company-built churches, schools, and community centers, bought their groceries in the company-owned stores, and lived in company-owned housing.

Overproduction, price wars, and competition from alternate fuels during and after World War I all contributed to a serious decline in coal company profits during the 1920s. By 1922, in an effort to recoup some of their losses, many coal operators attempted to reduce the union wage scale. Since seventy percent of all coal mined in the U.S. was mined under union wage agreements, this resulted in a series of nationwide strikes. By 1925, the center of the bituminous coal industry had shifted from Pennsylvania to Kentucky and West Virginia. As a result, many of R&P's mines were in operation for only one or two days a month. Company town residents searched for work on local farms, trading labor for food. Company executives gave up vacations and worked for periods of time without pay.

The R&P Coal & Iron Company entered the 1930s faced with the same economic problems which plagued the entire coal industry during the Depression years. A lack of uniform wage standards created still more difficulties in the coal industry, and by 1932, bituminous coal production in the U.S. fell to 305 million tons, the lowest rate since 1904.

As the economy gradually improved in the late thirties, the coal industry showed signs of recovery. With World War II on the horizon, the demand for coal increased. In anticipation of a growth of operations, R&P Coal & Iron reorganized in 1938, merging all of its subsidiaries and changing its name to the Rochester & Pittsburgh Coal Company. By 1939, R&P was producing 395 million tons of coal, which escalated to 514 million tons in 1941. This increase in production combined with the potential loss of employees to the armed forces forced R&P to modernize. R&P responded by installing updated mechanical loading equipment in all company mines.

Post-War coal production rates continued to climb, reaching R&P's all-time high of 631 million

tons in 1947. In order to retain their portion of the market, R&P began to seek new coal fields as older operations were mined out. Several new mines were leased from other Indiana County operators, and R&P placed a new emphasis on surface mining. R&P also expanded a significant portion of its operations into West Virginia, where the company acquired the coal rights to 7500 acres of land. By 1955, production at O'Donnell, their largest West Virginia operation, had reached 998,728 tons annually.

During the 1950s, R&P struggled to offset the losses of another major slump in the coal industry due to competition from non-union fields and alternate fuels. In 1954, the company joined with the Vitro Corporation of America to form the Vitro Mineral Corporation. For several years, Vitro Minerals mined uranium, silver, feldspar, and titanium at sites as far away as Canada, French Guiana, Columbia and Alaska. Although these efforts to attain profits outside of the coal industry were moderately successful, the Vitro Minerals Corporation was dissolved in 1962 and R&P again concentrated on the coal fields of Indiana County.

The same year that Vitro Minerals was dissolved, Pennsylvania Electric Company (Penelec), a major consumer of coal, announced a plan to build the Keystone Steam Electric Generating Station. As railroad freight rates per ton of coal exceeded the market price of coal at the mine itself, utility companies sought alternatives that would reduce their costs. Based on the theory that it was cheaper to produce power near its fuel source and transmit the electricity to the point of usage than it was to ship the fuel to a power plant away from the fuel source, Penelec planned to build this station near the abundant coal fields of central Pennsylvania. Penelec officials approached R&P to determine whether there were sufficient coal reserves to fuel such a large facility. By mid-1964, R&P and Penelec had reached a coal supply agreement for this Station, and several new mines were under development by R&P to reach the terms of this agreement. By 1969, a second plant similar to Keystone had been constructed near Homer City, Pennsylvania, which was also fueled by R&P coal.

Despite these two mine-mouth stations, which at least locally created a demand for coal, the 1960s were bleak days for the coal industry everywhere. R&P was forced to close many of its West Virginia operations, and the future of the Company depended upon the success of these mine-mouth operations.

Entering the 1970s, R&P had successfully altered its fundamental business strategy from that of selling coal on the commercial market to that of selling virtually its entire production under long-term contracts to only two customers, the Keystone and Homer City generating plants. Throughout the decade, R&P remained profitable in a difficult market marked by economic uncertainty and governmental regulation. In 1981, R&P celebrated its centennial, commemorating one hundred years of continuous coal production. The Iselin family, the company's original founders, have remained actively involved as officers of R&P's Board of Directors.

### **Scope and Content**

The R&P Collection consists of four series: Series I interviews, Series I & II negatives, Series III

photographs, Series IV slides. This project was funded, from 1977 to 1981, as a continuation of research compiled for the [Rochester and Pittsburgh Coal Company's Centennial History](#), written by Eileen Mountjoy in 1981.

The audiocassettes consist of interviews conducted by Eileen Mountjoy. The tapes provide an anecdotal, oral history of the miners themselves, mining disasters, strikes, family lifestyles, the lives of coal miners' wives, the processing of coal, and the trauma for immigrant miners trying to adapt to a new county and culture. The visual image collection includes images of coal mining machinery, the miners, the processes of coal mining, and mining communities. Also included are photographs of R&P personnel and labs. This collection contains materials from the early 1900s through 1981.

### **Provenance**

The collection was donated by the Rochester & Pittsburgh Coal Company in 1978 by R&P Company President Dr. Charles Jackson Potter (1908-1990) and Consol Energy in 1998. For more information about Dr. Charles Potter, see also C.J. Potter, and [Manuscript Group 208: Dr. Charles Jackson Potter Collection](#).

### **Restrictions**

This collection is open and available for research. Property rights reside with [IUP Special Collections and University Archives](#) and Indiana University of Pennsylvania (IUP). Literary rights are retained by the creators of the records and their heirs. For permissions to reproduce or publish, please contact the [Special Collections Librarian and University Archivist](#).

### **Processor**

The present collection was organized and the finding aid was updated by Harrison Wick on November 28, 2017.

### **Series Descriptions**

#### **Series I: Rochester & Pittsburgh Coal Company Interviews**

The taped interviews were placed in the IUP Special Collections and University Archives in 1990. The 46 cassette recordings date from 1977-1979, with the addition of one interview conducted in August, 1991. The project was funded by the Rochester and Pittsburgh Coal Company and was conducted by Eileen Mountjoy. The tape recorded interviews were compiled from a list of R&P retired miners, their wives, executives, and in several other instances with residents of other Indiana County mining towns. Select audio cassette tape interviews were transferred to audio CD and are available in Series I Box 9.

The topics of the interviews include mining occupations, company town life, mining disasters, mine safety and early technology, strikes and evictions, unionization, the coke making industry if Indiana County, as well as several especially important cassettes recording the importation of immigrant miners and their families at the turn of the century.

The "R&P" Project provided the basis for a series of twelve full-length articles published in the *Indiana Gazette* and *Pennsylvania Heritage Magazine* (Harrisburg,) making the information collected available to a wide audience. In addition, the interviews formed the basis for 2 Pennsylvania Humanities Grant funded traveling exhibits "Spraggers and Sunshine Lamps," and "I Remember; A Coal Town Childhood" which were placed, over a period of three years, in over 100 elementary and secondary schools in Indiana, Jefferson, and Cambria counties.

**Series II: Negatives, includes duplicates of photographs in Series III.**

**Series III: Photographs including duplicates and original prints**

**Series IV: 35mm slides (color and black & white) 417 Slides**

**Series IV Subseries A: Victory Gardens and Company Town Garden Contests in Jefferson and Indiana Counties, 1943-1947 (Slides of Gardens only, no images of people) in Ernest, Fulton Run, Lucerne, Iselin, Coal Run, Helvetia, Aultman, McIntyre, Tide, Coy, Luciusboro, Waterman, Sagamore, Yatesboro, Margaret, and NuMine, Pennsylvania**

**Series IV Subseries B: Mining Industry in Jefferson and Indiana Counties, 1881-1984**

#### **Container List**

**Series I: Rochester & Pittsburgh Coal Company Interviews**

**Box 1 Interviews: Bartolino-Cippolini (Audio Cassette Tapes) use audio CDs in Box 9 or digital copies**

1. "Liberty" Bartolino, April 17, 1978, Life in "Whiskey Run" mining town & description of the "Whiskey Run Murders."
2. John Balls, October 25, 1978, R&P Foreman at Ernest Tipple
3. Roy Blystone:
  - a. Roy Blystone, January 13, 1978, Blystone's mining career working in Sagamore, Pennsylvania
  - b. Roy Blystone, April 9, 1979, mining lore and Blystone's mining career working in Sagamore
4. Peter Calhoun:
  - a. "Pete" Calhoun, September 8, 1978, R&P executive describes history and tech. of Ernest cleaning plant (now demolished)
  - b. "Pete" Calhoun, October 17, 1979, Retired R&P executive topic; Coke production
5. Lucia Christy, August 22, 1979, Recollections of arrival from Italy in steerage to Walston, Pennsylvania (interview not audible)
6. John Cippolini:
  - a. John Cippolini, March 29, 1979, Lucerne power plant operation
  - b. John Cippolini, March 31, 1979, Lucerne power plant operation

**Series I: Rochester & Pittsburgh Coal Company Interviews**

**Box 2 Interviews: Coy-Cummins (Audio Cassette Tapes) use audio CDs in Box 9 or digital copies**

7. Norman Coy:
  - a. Norman Coy, December 28, 1977, Growing up in Sagamore, Pennsylvania, political views
  - b. Norman Coy, March 1, 1978, Retired miner, his views on the 1977-1978 coal strike B, the "Black Hand" Society, growing up in Sagamore

8. James Craig, 1977-1979, R&P employee, strikes and evictions
  - a. James Craig, May 12, 1977, Superintendent at Yatesboro, Pennsylvania mine, recollections of R&P presidents, eyewitness of evictions in 1905 strike.
  - b. James Craig, 1905 evictions, April 22, 1977
  - c. James Craig, 1905 evictions, February 10, 1978
  - d. James Craig, Early mining technology, March 29, 1979
9. Merle Craig, Retired R&P employee, started in 1940:
  - a. Merle Craig, February 25, 1977, Assistant to Vice President of operations, 1942-1970; early mining experience with grandfather
  - b. Merle Craig, April 13, 1978, Retired R&P executive; life in the company town of Iselin, Pennsylvania
10. Retired "Company Man" laying overhead transmission lines for Lucerne power plant, no date (1977-1978)

### **Series I: Rochester & Pittsburgh Coal Company Interviews**

#### **Box 3 Interviews: Faith-Hudzick (Audio Cassette Tapes) use audio CDs in Box 9 or digital copies**

11. Glenn Faith, March 21, 1978, Retired miner; Importation of Italian miners into Indiana County mines
12. Victor Fello, March 7, 1978, Life in the company town of Iselin, 1920s-1930s
13. Francis Gilbert Remy, September 29, 1978, R&P President widow; brief personal anecdotes
14. Paul Gill, November 28, 1978, Engineer; CBC - Commodore and its sewage disposal plant
15. Andrew Golish, September 25, 1979, "Old Field" Mines (Jefferson County); Coke industry and recipes
16. Archie George, December 16, 1977, Early mining experiences (1930s); description of two accidents
17. Andy Haggarty:
  - a. Andy Haggarty, R&P mining superintendent with 50 year career in mining, April 3, 1978
  - b. Andy Haggarty, Mining experiences, July 10, 1978
  - c. Andy Haggarty, April 28, 1978, Mining career
18. Andrew Hudzick, June 16, 1978, Retired miner, began age 11

### **Series I: Rochester & Pittsburgh Coal Company Interviews**

#### **Box 4 Interviews: Hudzick-Lydick (Audio Cassette Tapes) use audio CDs in Box 9 or digital copies**

19. A. Hudzick (1 tape)
20. Mrs. Hughes, October 9, 1978, Company Director's wife at Commodore, 1930s-1960, rich in information concerning Company Town life.
21. Mrs. Stanley Kaminsky, April 11, 1978, Life in Poland; Immigration to and first impressions of Iselin, Pennsylvania
22. John "Bounce" Kovalchick, Recorded on January 10, 1978 and February 1, 1978
  - a. John "Bounce" Kovalchick, January 10, 1978, Life in Sagamore, Pennsylvania
  - b. John "Bounce" Kovalchick, February 1, 1978, Kovalchick's mining career & mining town experiences
23. A.E. "Shorty" Long, October 13, 1978
  - a. Retired general superintendent, Clearfield Bituminous Coal Company (CBC), Company Town of Commodore, mining machines, Sample Run explosion

24. Alvie Lydick, October 16, 1978, Coke industry, Reynoldsville, early mining technology

**Series I: Rochester & Pittsburgh Coal Company Interviews**

**Box 5 Interviews: Mining-Sagamore (Audio Cassette Tapes) use audio CDs in Box 9 or digital copies**

25. Mining town women recorded by Eileen Mountjoy, no date
26. Andrew Mizerack
- a. Andrew Mizerack, January 15, 1977, Early life in Walston, Pennsylvania, and Coke production in Ernest, Pennsylvania
  - b. Andrew Mizerack, October 23, 1978, Ernest cleaning plant & Coke production
27. Ed Murphy, September 26, 1979, Coke industry in Sykesville, Pennsylvania, 1930s
28. Roy Orr, January 24, 1978, the Black Diamond Mine in Willet, Pennsylvania, "County Bank"
29. Lawrence Redding, May 13, 1977, R&P's youngest mining superintendent, recollections dating back to the turn of the century (1900s)
30. Mrs. Christine Ruddock English, May 30, 1978, the "Whiskey Run" murders
31. 23rd Annual Sagamore Reunion recorded at Plumville Fire Hall, September 2, 1978

**Series I: Rochester & Pittsburgh Coal Company Interviews**

**Box 6 Interviews: Shaffer-Yesolovich (Audio Cassette Tapes) use audio CDs in Box 9 or digital copies**

32. Wilbur Shaffer, February 19, 1979, Retired miner; "County Bank" Coal industry of Five Points, Indiana County
33. Roy Smith, July 27, 1978, Retired R&P engineer McIntyre Tipple & its operation
34. "Butch" Tortella, June 5, 1978, Retired miner; describes coming to Indiana coal industry in steerage from Italy, before World War One (WWI)
- a. "Butch" Tortella, June 5, 1978 Part 1
  - b. "Butch" Tortella, June 5, 1978 Part 2
35. Ben Trunzo, November 11, 1978, Coal town of Byer, Pennsylvania; Trunzo's mining experience began at age 13, driving mules, early mining occupations late 1920s
36. James Vilciny, June 13, 1978, Coke operations at Coral, Pennsylvania
37. Mary Wagner, August 29, 1978, her experiences as a company town schoolteacher in Whiskey Run, 1923-1926
38. "Pete" Yanity, March 21, 1978, Lucerne & Ernest, Pennsylvania, 1922 strike, etc.
39. Joe & Helen Yeslovich
- a. Life in mining towns, October 4, 1979
  - b. Life in the company town of Ernest, November 20, 1977

- P-438 R&P Office Building, 1920
- P-439 Lucerne: View of Town, 1920
- P-440 Main Haulage to Lucerne Mine #1, 1920
- P-441 Chain Machine Making and Undercut Across a 24-foot Room
- P-442 "Coal after it has been cut down waiting for the Loader"
- P-443 Coal Loaders: Lucerne, 1920
- P-444 20-Ton Locomotives with Loaded Cars Leaving the Pit Mouth, Lucerne, 1920

- P-445 20-Ton Locomotive with 60 Loaded Mine Cars, 1920
- P-446 Ernest; Loaded Coal Car in Front of Tipple, 1920
- P-447 Coal Car Dumper, Ernest Tipple, 1920
- P-448 Coal Car Dumper, Ernest Tipple, 1920
- P-449 Loading Cars under Ernest Tipple, 1920
- P-450 Mine Car in Front of Ernest Coke Ovens, 1920
- P-451 Motorman Pulling String of Loaded Coal Cars, 1920
- P-452 Old Ernest Tipple, 1920, Coke Ovens in background
- P-453 R&P Coal & Iron Company Office Building Foundation, January 27, 1920
- P-454 Loaded Mine Cars Entering Lucerne Tipple, 1920
- P-455 Trip of Loaded Mine Cars Entering the Iselin Tipple showing Rock Dump and Bin in the Right-Hand Corner. 1920
- P-456 Lucerne Picking Tables, 1920
- P-457 Lucerne Tipple: Coal Loading Into Railroad Cars, 1920
- P-458 Loaded Coal Cars at Lucerne, 1920
- P-459 Lucerne: Lower Edge of Tipple and Part of Loaded "Trip," 1920
- P-460 Main Switchboard of 30,000 KVA Power Station: Lucerne, 1920
- P-461 Main Turbine Room Showing Two 3750 KVA Machines: one 15,000 KVA Turbo-Generator. Lucerne, 1920
- P-462 View of the Stoker Room, giving full view of Coal Bins and Taylor Underfed Stokers manufactured by the American Engineering Company, Lucerne, 1920
- P-463 Main Water Supply Two Miles Away from Lucerne Power Plant on Cherry Run. 15 Acres Covered With Water. Dam Has a Capacity of 70,000,000 Gallons of Water, 1930
- P-464 Office and Hardware Rooms of R&P's Lumber and Supply Building, 1920
- P-465 Factory and Garage: R&P Lumber & Supply Company, 1920
- P-466 Interior of Planing Mill and Woodworking Shop: Consolidated Lumber & Supply, 1920
- P-467 Interior View of the Mine Car Shop: R&P Lumber & Supply Shop, 1920
- P-468 Planing Shop Interior, R&P Lumber & Supply, 1920
- P-469 Interior View of One of the Million Foot Lumber Sheds, 1920
- P-470 Interior View of the Company's General Mechanical Machine Shop, R&P Lumber & Supply, 1920
- P-471 Interior View of Electrical Repair
- P-472 Seven-Hundred Class BR&P Mallet-type Locomotives Hauling 65 Cars of R&P Coal on Double-Track Line, 1920
- P-473 Lucerne Store Building Facing the Street, 1910, destroyed by fire
- P-474 Helvetia Store Building in Helvetia (Clearfield County,) between Sykesville and Luthersburg. Destroyed by Fire in 1940 and Rebuilt. Removed in 1990 to Provide for Surface Mining (rear view)
- P-475 Lucerne Mine: Shaft and Car Dump. Located adjacent to Lucerne Power Plant, 1906
- P-476 Ernest: Full View of Town, 1906
- P-477 Waterman Store Located in Center Township, along route 56 between Homer City and Brush Valley, 1910, destroyed by fire (rear view)

- P-478 Ernest Store Building in Rayne Township, Route 110, destroyed by fire, 1906
- P-479 Yatesboro Store Building, Cowanshannock Township, Armstrong County, on Route 85 between Rural Valley and Kittanning, 1910, destroyed by fire
- P-480 NuMine Store Building in Cowanshannock Township, Armstrong County. Located Along Route 85 East of Rural Valley, 1910 (front view)
- P-481 Lucerne Store: near Homer City, Center Township, 1910 (rear view) destroyed by fire
- P-482 Mahoning Supply Company Store at Iselin, Young Township, between Clarksburg and Eldersridge, 1906 (rear view)
- P-483 Mahoning Supply Store at Iselin, Young Township, located between Clarksburg and Eldersridge, 1906
- P-484 Coal Run Store Building in the Mining Town of Clune, located along Railroad tracks leading to Coal Run Tipple, 1910, destroyed by fire
- P-485 Luciusboro Store Building in the town of Luciusboro, located on Route 119. South Center Township, 1913
- P-486 McIntyre Store Building, Young Township, on Route 32033, Northwest of Jacksonville Borough, 1913 (rear view)
- P-487 Yatesboro Store Building in Cowanshannock Township, Armstrong County, on Route 85 between Rural Valley and Kittanning, 1906 (rear view) destroyed by fire.
- P-488 McIntyre Store Building, Young Township, on Route 32033 Northwest of Jacksonville Borough, 1906 (front view)
- P-489 NuMine Store Building in Cowanshannock Township, Armstrong County, east of Rural Valley on Route 85, 1905 (rear view)
- P-490 Ernest Store Building in Rayne Township, on Route 110 East of Indiana, 1910 (rear view) destroyed by fire
- P-491 Store Building at Soldier Mining Town (R&P C&I) located between Sykesville and Reynoldsville, Jefferson County, 1910 (rear view)
- P-492 Store Building at Soldier Mining Town of R&P C&I located Between Sykesville and Reynoldsville, Jefferson County, 1910 (front view)
- P-493 Waterman Store Located in the Town of Waterman along Route 56 between Homer City and Brush Valley (front view facing Route 56)
- P-494 Tide Store Building in Center Township, north of Homer City on Route 32035 along Yellow Creek, 1910 (front view)
- P-495 Tide Store Building in Center Township, north of Homer City on Route 32035 along Yellow Creek, 1910 (rear view)
- P-496 Fulton Run Store Building in White Township, north of Indiana on Route 954, 1910 (rear view)
- P-497 Fulton Run Store Building in White Township, north of Indiana on Route 954, 1910 (front view)
- P-498 Coal Run Store Building in Mining Town of Coal Run (Post Office in Clune) Located along the Railroad Tracks Leading to Coal Run Tipple, 1910 (front view)
- P-499 Helvetia Store Building in the Mining Town of Helvetia in Clearfield County, 1910, destroyed by fire
- P-500 Underground scene: 3 men examining continuous mining machine, 1950
